- Github
- DSA

RECENT EXPERIENCE

Agicent Technologies

January 2023 – present

React.js Developer

- As a React.js Developer at Agicent since January 2023, I play a pivotal role in crafting exceptional user experiences through innovative solutions. Collaborating closely with backend teams, I seamlessly integrate APIs, ensuring robust functionality. My expertise lies in suggesting enhancements that optimize application performance and usability. Committed to delivering high-quality, bug-free applications, I meticulously conduct unit testing throughout the development lifecycle. With a strong emphasis on clean coding practices and timely delivery, I consistently meet project deadlines while upholding the highest standards of quality. My contributions significantly enhance the user experience, solidifying Agicent's reputation for excellence in the industry.
